Recommendation

Receive and file the June 30, 2015 Cash and Investment Report.

Background

The City Treasurer files an investment report with the City Council on the status of City investments on a quarterly basis. City resources are organized and accounted for on a fund basis with some of the funds restricted for specific purposes while others are unrestricted. For investment purposes, however, funds are invested as a pool; except for the Measure H bond proceeds which are held separately.

The investment report provides a summary of the status and activity in the City’s pooled investment portfolio and investments held by the bond trustee, U.S. Bank. The City manages its investment portfolio consistent with the guidelines established by the City Council via its formally adopted investment policy. The City’s investment priorities are as follows:

1. Safety
2. Liquidity
3. Yield

Discussion

The City investments are primarily in the State’s Local Agency Investment Fund (LAIF) for both pooled cash and construction Measure H bond funds which are recognized as “safe” investments. LAIF provides the primary liquidity, with other investments serving to maximize yield. Securities are priced using June 30, 2015 market values. In some cases, the City may have investments with a current market value that is greater or less than the recorded cost. These changes in market value are due to fluctuations in the marketplace having no effect on yield, as the City does not intend to sell securities or certificate of deposits prior to maturity.

The City is in compliance with the adopted investment policy and able to meet its expenditure requirements for the next six months.

Fiscal Impact

None.
