

**Date:** August 21, 2015  
**To:** Mayor and City Council  
**From:** Tim Tucker, City Engineer  
**Subject:** Hidden Lakes Park Soccer Field Replacement

---

**Recommendation**

Move to approve the Hidden Lakes Soccer Field Preferred Conceptual Plan as recommended by the Parks, Recreation, Marina and Cultural Commission (PRMCC).

**Background**

In 2008, voters approved Measure H, which provides funding to improve the library, parks and other City recreational facilities. The list of projects identified with Measure H includes the replacement of the natural turf soccer field at Hidden Lakes Park with an artificial (synthetic) turf field. On May 6, 2015 the Council authorized the City Manager to execute an agreement for consultant services with Siegfried Engineering to complete the design of the project. The estimated construction cost is \$1,400,000.

Discussion

Siegfried Engineers developed the preferred conceptual plan of the Hidden Lakes Park soccer field based on comments received at the June 8, 2015 public workshop, the June 16, 2015 PRMCC meeting and the Park Subcommittee meeting on June 16, 2015. The Park Subcommittee reviewed and approved the updated plan at their meeting held on August 3, 2015. The PRMCC approved the field layout at their August 18, 2015 meeting.

The filed layout includes:

- Full size soccer fields (60yd x 110yd)
- “Under 11” fields (45yd x 80yd)
- Two “Under 8” fields (30yd x 60yd)
- Full size lacrosse that would be marked in a non-prominent color.
- New shade trees, including four 36” box oak trees.

The project also includes wooden bollards, ADA access and resurfaced paths. Options for synthetic turf, infill and landscaping were also discussed at the August 3<sup>rd</sup> Parks Subcommittee meeting. The Subcommittee will continue to review park amenities, along with turf and infill combinations that fit the project budget.

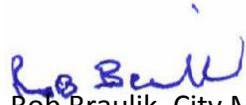

**Fiscal Impact**

The project is funded in the fiscal year 2015-17 Capital Improvement Program.
