

CITY OF MARTINEZ

**CITY COUNCIL AGENDA
June 20, 2007**

TO: Mayor and City Council

FROM: David J. Cutaia, Chief of Police

SUBJECT: East Bay Regional Communications System

DATE: June 6, 2007

RECOMMENDATION:

It is recommended that the Council approve the included resolution and approve the Joint Exercise of Powers Agreement subject to condition for the East Bay Regional Communications System Authority and authorizes the City Manager to sign the final version of the Joint Powers Authority Agreement.

It is further recommended that the City Council authorize an expenditure of \$10,700.00 as initial funding for the Interoperability Radio Project.

BACKGROUND:

The issue of radio interoperability among emergency services personnel has been a major concern and topic of discussion at the County Police Chiefs' and Fire Chiefs' respective associations and has periodically been reported in the media when communication lapses occur. It was not until recently that a major emphasis has been put forth to resolve the issue of radio interoperability for a common good.

The radio systems currently being used by agencies vary in terms of the radio spectrum assigned. Whether an agency is transmitting on VHF (very high frequency) low band, UHF (ultra high frequency) or 800MHz, the common denominator is the inability to communicate when resources are needed from other jurisdictions.

The event of September 11 highlighted the importance of radio communications as a multitude of agencies responded to a tragic event and did not have the ability to communicate with one another. Even locally, the issue of interoperability has surfaced in incidents such as the petroleum pipeline fire in Walnut Creek, in various fires and chemical releases at the refineries and heavy industrial complexes throughout Contra Costa County, and in the city of Martinez.

In 2001, then County Administrator John Sweeten budgeted monies to contract with a consultant to study this issue. As a result, Will Casey, former Police Chief of the cities of San Francisco,

Hercules and Pittsburg, City Manager for the City of Pittsburg and currently a Pittsburg City Council member, was appointed to study this issue. This resulted in the formation of a committee that included representatives of the Contra Costa Police Chiefs' Association, County Fire Chiefs' Association, the Contra Costa County Department of Information Technology, and the Contra Costa Sheriff's Office. The committee was active for an excess of three years. A similar committee was also formed in Alameda County regarding these issues.

More recently, a negotiating committee consisting of police, fire and city and county administrators and several city and county elected officials from both counties has worked to develop the Joint Powers Authority document attached to this report. It is very likely that all cities and both counties will join the JPA.

It is suggested, however, that the JPA be approved subject to the City Manager, Police Chief and Mayor's determination that more than 50% of the eligible agencies have agreed to join the JPA. This will assure that we are part of a larger agency where economies of scale can be realized.

FISCAL IMPACT:

Should the City Council approve the JPA, the initial deposit funding source will be from the City of Martinez vs. Texaco lawsuit settlement. \$100,000.00 has been set aside for emergency services. The funding formula requires that each local entity provide \$100 for each emergency services radio that the agency possesses. In total, the City of Martinez owns 107 such radios. This will require funding in the amount of \$10,700.

Ultimately, the city will have to pay for new radio equipment via bond or lease payments set by the Authority based upon what level we choose to participate. With or without the JPA radio equipment wears out and we have a regular replacement program.

ACTION:

Adopt resolution included with this report.

APPROVED BY:

City Manager

RESOLUTION NO. -07

**AUTHORIZING THE CITY MANAGER TO SIGN THE JOINT POWERS AGREEMENT
FOR THE EAST BAY REGIONAL COMMUNICATIONS SYSTEM AUTHORITY**

WHEREAS, it is the desire of the Martinez City Council to improve communications in emergency and disaster situations; and

WHEREAS, all local entities within Alameda and Contra Costa County are moving forward to interoperability of emergency services communications equipment.

NOW, THEREFORE, BE IT RESOLVED that the City Council of the City of Martinez hereby approve the Joint Powers Agreement subject to City Manager, Police Chief and Mayor determination that 50% of the eligible agencies have executed the Joint Powers Agreement, and authorizes the City Manager to execute such agreement, and City Council authorizes initial funding in the amount of \$10,700.00 for this project.

**JOINT EXERCISE OF POWERS AGREEMENT FOR THE
EAST BAY REGIONAL COMMUNICATIONS SYSTEM AUTHORITY**

THIS JOINT EXERCISE OF POWERS AGREEMENT FOR THE EAST BAY REGIONAL COMMUNICATIONS SYSTEM AUTHORITY (the "Agreement") is entered into as of the ____ day of _____, 2007, by and among the _____

(hereinafter collectively referred to as "Members" and individually as "Member").

RECITALS

A. WHEREAS, Chapter 5 of Division 7 of Title 1 of the California Government Code authorizes the Members to enter into an agreement for the joint exercise of any power common to them; and

B. WHEREAS, the Members have the common powers, under their respective sovereign and police powers, to acquire real, personal and intangible property and to plan, design, finance, construct, operate, and maintain public safety radio communication systems, facilities and related structures, and appurtenances and incidental improvements thereto; and

C. WHEREAS, the Members have determined that the public interest will be served by the joint exercise of these common powers through this Agreement and the creation of a joint powers authority to acquire, plan, design, finance, construct, operate and maintain a P25 compliant or equivalent (as defined herein) communications system serving Alameda and Contra Costa Counties and individual political jurisdictions therein; and

D. WHEREAS, the Members have further determined that such an East Bay Regional Communications System Project (the "EBRCS Project"), to which Members and non-members may subscribe (the "Subscribers") subject to the provisions set forth herein, should be undertaken in order to meet public safety communication needs of the Members, and that the EBRCS Project will have regional consequences beyond the Members' geographical jurisdictions, thus encouraging participation by other governmental agencies including but not limited to the State and Federal government.

NOW THEREFORE, in consideration of the promises, terms, conditions, and covenants contained herein, the Members agree as follows:

AGREEMENT

1. Authority and Purpose. This Agreement is made under the authority of and pursuant to the Joint Exercise of Powers Act, Chapter 5 of Division 7 of Title 1 of the California Government Code (commencing with Section 6500 et seq.) (the "Act"), relative to the joint exercise of powers common to the Members and as otherwise granted by the Act. The purpose of this Agreement is to provide for the acquisition of real, personal and intangible property; and the planning, design, financing, regulation, permitting, environmental evaluation, public outreach, construction, operation, and maintenance of the EBRCS Project, or any identifiable portion of the EBRCS Project. Notwithstanding anything in this Agreement to the contrary, each Member also reserves all of its rights and powers to proceed

separately within its jurisdictional boundaries on any compatible public safety communications projects anticipated to become part of the EBRCS Project; provided, however, that the planning, design, and construction of such projects should be consistent with the Functional Specifications for the EBRCS Project dated _____ (the "Functional Specifications") or as subsequently amended by the Authority's Board of Directors and incorporated herein by this reference.

The general specifications and performance standards for the EBRCS Project are as follows: The EBRCS Project is designed as a P25 digital trunking system operating in the 800Mhz/700Mhz frequency spectrum. The system solution is a wide area, two county, IP-based architecture communications system that is compliant with the ANSI/EIA/TIA-102 suite of standards. The EBRCS Project will utilize sites strategically located throughout, but not limited to, Member jurisdictions. The EBRCS Project is also expected to meet typical public safety requirements of a Grade of Service of two percent busies during the busy hour with an estimated 90 percent of busy calls queued within 2.5 seconds.

For purposes of this Agreement, P25 compliant or equivalent means a common set of standards for first-responders that allows the highest level of interoperable communications in a digital mode.

2. Creation of Authority and Jurisdiction. Pursuant to the Act, the Members hereby create the East Bay Regional Communications System Authority (the "Authority"), a public entity separate and distinct from each of the Members. The jurisdiction of the Authority shall be all territory within the geographic boundaries of the Members, however the Authority may undertake any action outside such geographic boundaries as is necessary and incidental to the accomplishment of its purpose and the EBRCS Project.
