

CITY OF MARTINEZ

PARK, RECREATION, MARINA & CULTURAL COMMISSION AGENDA

July 20, 2010

TO: Chairperson and Commissioners

FROM: Tim Tucker, City Engineer

SUBJECT: Rankin Park approval

RECOMMENDATION:

Approve motion accepting recommendation of Park Subcommittee for the design of Rankin Park and authorize the Park Subcommittee to approve the final construction plans.

BACKGROUND:

On May 4, 2010 the PRMCC was presented a layout of Rankin Park. The PRMCC did not request any changes to the layout. The Park Subcommittee, Landscape Architect and Engineering Division have been working to finalize the plans for the past two months.

The Subcommittee has chosen equipment that fits into natural setting of Rankin Park. The equipment selection has been finalized by the subcommittee. The grading plan and park layout has been completed. There will be climbing rocks, swings, log slides and a large climbing feature. Restrooms will be located near the playground. ADA access is provided from the parking lot to the play area, picnic area and olive grove with concession building. In addition bar-b-ques will be located at the picnic areas and outdoor sinks will be attached to the buildings. The gazebo will be relocated slightly to become an integrated amenity to potential park activities. Attached is the final park layout. Attached is a plan of the final site layout and details of some of the play features.

A concept for the main play feature that fits into the northern slope of the park will have been approved. The detailed custom design will be completed as part of the construction plans. The Parks Subcommittee requests the PRMCC approve a motion approving the design of Rankin Park and authorize the Park Subcommittee to approve the final construction plans.

A PowerPoint presentation will be made at the meeting showing the various play features.
