From: Patty Lorick, Recreation Supervisor

Subject: Request to Move the Old Volunteer Firemen's Water Fountain from Rankin Park to the Cemetery

Background

The Alhambra Cemetery Commission (ACC) is aware that when demolition begins at Rankin Park, the old volunteer firemen's water fountain needs to be moved to a new location. The Commission and the Parks Department would like to preserve the fountain by installing it at the Alhambra Cemetery. The ACC feels that the water fountain is architecturally fitting and historically appropriate to the cemetery. The Cemetery Commission has allocated funds for new water lines in the cemetery and the Parks Department has plans to install the water fountain as a working bubbler.
