

CITY OF MARTINEZ

MEMO

Date: September 12, 2012
To: PRMCC
From: Cathy Spinella, Finance Manager
Subject: John Muir Amphitheater Study

BACKGROUND:

In February 2007 the City Council authorized \$50,000 for the Amphitheater as part of the 5 year Capital Improvement Program. The money was for water and electrical power to restrooms, concession stand, ticket booth and Kenney building, and installation of security lighting.

In March 2008 the City Council authorized \$25,000 for improvements to the amphitheater for fencing, and a sewage holding tank. The City also built a deck on the restroom trailer to provide handicap access.

AMPHITHEATER STUDY:

As of June 30, 2012 the John Muir Amphitheater project account has \$13,213.84 remaining for improvements. Since the funding was intended for improvements, staff would need to go back to Council to authorize the funds to be used for anything other than improvements to the facility.
