

CITY OF MARTINEZ

MEMO

Date: September 13, 2012
To: PRMCC
From: Dave Scola, Director of Public Works
Subject: Library

The measure H Library Renovation Project has been completed and accepted by the city council. The approved project did not include audio-visual equipment or portable partitions. A request to add audio-visual equipment was made prior to the project completion and it was determined to not qualify for Measure H bond funding. The bond outlined specific improvements for the library renovation project and construction drawings were presented to county library, the public and the PRMCC several times before construction was started. Measure H funds cannot pay for additional equipment.
