ACTION

BACKGROUND

The Commission has voiced a desire to have an Agenda Plan attached as part of the Agenda. Staff has added target dates to the list of "Future Agenda Items". Staff recommends that as items are added to the list a target date is added for each item. If after a few months of tracking future items by this method Commission finds it does not meet their need staff will revisit the issue. Below is a list of items that may not have been previously addressed or added to the list of Future items. Staff requests the Commission review and edit the list.
